

Mongkon Onnom (S)

Full Stack Developer / Software Engineer / Creative Developer

 Bangkok, Thailand  +66 80-084-4424  mongkononnom@gmail.com
 GitHub: github.com/EdmaeMongkon  Portfolio Web: edmaemongkon.github.io/remix-portfolio

"A highly driven Software Engineer and Creative Developer with expertise in building robust, interactive systems. Experienced in Unity (C#) game development, full-stack web development, and UX/UI design. Focused on writing Object-Oriented Programming (OOP) clean code, designing scalable and modular architectures, and creating responsive web pages. Combines solid software engineering principles with 3D modeling (Blender) and digital content production to deliver frictionless, aesthetic, and high-performance user experiences."

SKILLS & EXPERTISE

Web Dev & Stack

JavaScript (ES6+), Web APIs, HTML5, CSS3, Tailwind CSS, Vercel (Serverless Deployments), Responsive Web Design
Actively learning: Vue.js, Nuxt.js, Node.js

Game Development

Unity Engine, C# Scripting, 2D/3D Game Mechanics, UI Canvas Systems

3D & Animation

Blender (3D modeling, lighting simulation, wind/water physics, smooth keyframe animations)

Web & UX/UI Design

Figma (Layout design, Wireframes, UI/UX System Design)

Creative Tools

Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro, After Effects), Canva, CapCut

EDUCATION

Bachelor of Science

Digital Media, Thonburi University

High Vocational Diploma

Information Technology, Rajdamnern Tech

Vocational Certificate

Business Computer, Rajdamnern Tech

WORK EXPERIENCE

2025 — Present: Head of Content Creator

- Led commercial product photography, custom graphic assets, and end-to-end video shooting and editing for social media marketing campaigns.

2024 — 2025: Suki Teenoi Captain

- Supervised front-of-house operations, managed guest queues, and resolved customer issues professionally in high-traffic dining environments.

Graphic Designer

- Designed marketing materials and branding assets. Developed professional business presentations for pitches and corporate meetings.

KEY PROJECTS

- TikTok Shop Return Barcode Scanner:** A highly optimized returns management tool syncing barcode scans to Google Sheets in 0.5s via Vercel (Serverless Architecture), Web API, and Google Sheets API. Features secure data sync and a performance summary dashboard.
- TypeZen (Typing Speed Trainer):** A premium, interactive typing speed trainer for Thai and English. Highlights: Sleek glassmorphism UI/UX design, synthesized keyboard sound effects, glowing particles, and deep metrics analytics (WPM, Accuracy).
- Lumina Spin (Virtual Lucky Wheel):** A premium virtual lucky wheel based on physics simulation. Highlights: Physics-based friction algorithm, real-time synthesized audio soundscapes, and confetti particle celebration.
